

GGGCATGGGCAT

The image displays a DNA double helix structure. The top strand is composed of the following nucleotides: G (yellow), G (yellow), C (blue), A (green), T (red), G (yellow), G (yellow), C (blue), A (green), and T (red). The bottom strand is composed of the following nucleotides: C (blue), C (blue), G (yellow), G (yellow), C (blue), C (blue), G (yellow), G (yellow), C (blue), and C (blue). The strands are connected by horizontal bars representing base pairs: G-C, G-C, C-G, A-T, T-A, G-C, G-C, C-G, A-T, and T-A.
